

SWAP

**Shortage Warning App
for Pharmaceuticals**

Team Idea:

A mobile app which tracks shortages of medications and their ingredients, allowing patients to meet with their doctor before they run out

Alleviates shortages by prompting patients to ask their doctor about similar alternatives, reducing excess demand

Who It Helps:

Prescription drug users who are put at risk by unexpected drug shortages

Relevance to Theme:

SWAP keeps healthcare workers and patients informed and ensured alternatives to their life saving medicine is available if and when needed

Data Source:

US Pharmacopeia
Medicine Supply Map

MOCKUPS + DETAILS

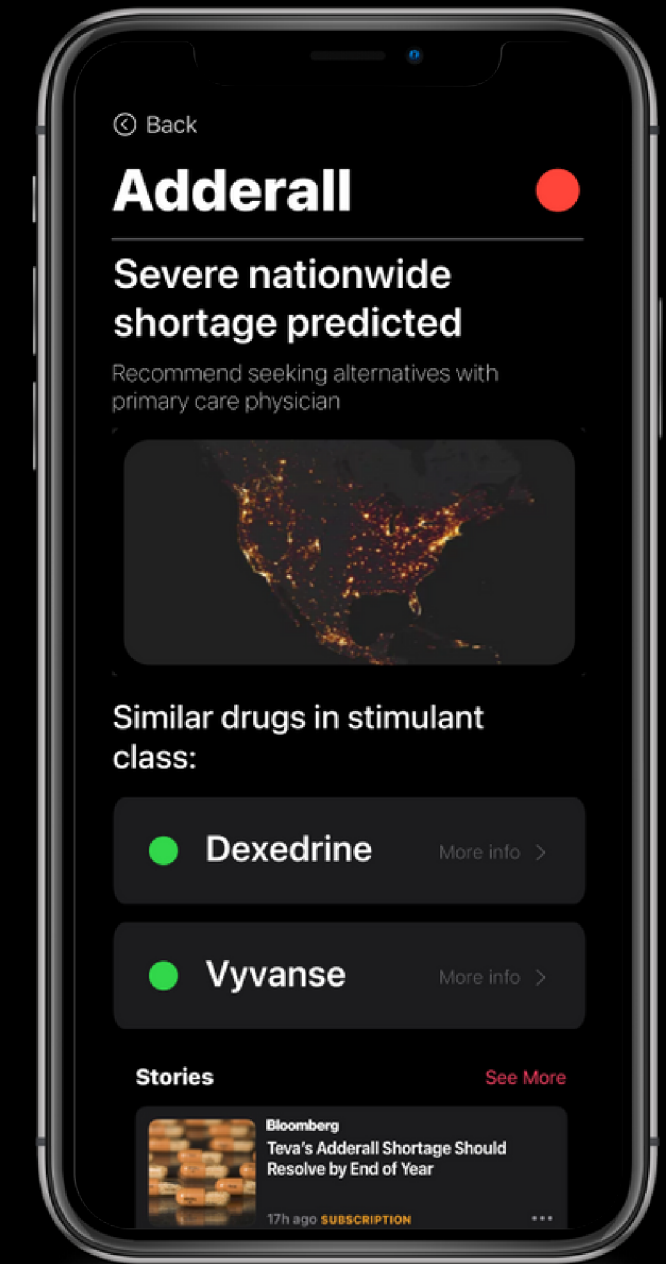

Track What's Important

See the supply status of medications you rely on

Get an Early Warning

Be notified of sudden shortages or collapse of supply lines

Investigate Next Steps

See shortage regions on heat map, as well as possible alternatives to ask your doctor about
